

Quicklook is a unique and innovative solution that has captured the imagination of the global low vision community. This award winning product, with its patented design, has created a new standard in portable handheld magnifiers.

Remarkably intuitive to use, simply flip the camera open and start reading! You can now read what you want wherever you are. From price tags in a shop to a timetable in a station, Quicklook is an everyday tool for independent living. Filling out forms or signing a cheque is ingeniously facilitated by simply flipping the camera into its writing position.

Packed with a host of additional features, Quicklook provides the ultimate in flexibility for an active lifestyle. If regular print is too small then Quicklook is here to help.

FUNCTIONS
